GDPR HOME WORKING
It's not rocket science!

Should you take work home?
It's high risk - Did you know that this is how some of the biggest data breaches in education occurred.

Working from home?
Have you read our policy for home working?

Encryption
Do you know what it means?
If your answer is NO then you must not take personal data home.

You must stick to the rules
Do you realise that if you don’t follow the rules on home working we can ALL get in serious trouble?
